UWB HACKS THE FUTURE OVERVIEW

APRIL 24-26TH
2026

400+
STUDENTS

UNIVERSITY OF
WASHINGTON,
BOTHELL

The UWB Hacks team is proud to hold UWB Hacks for the **10th year** this April 2026! UWB Hacks is a 36-hour hackathon held at the University of Washington Bothell (UWB). It is the largest hackathon on the UWB campus, and is one of the largest in Washington State.

UWBHacks: Hacks The Future 2026 will be held on **April 24th through April 26th**. We expect to have **400 participants** from colleges statewide. We will also be partnering with the University to support goals of fostering a diverse and inclusive event.

Your contributions will go towards **various prizes, operations, food, shirts, and stickers**. We've provided a breakdown of the different perks we offer in return for our sponsors. Sponsorship gives your company or organization **access to the top engineers, designers, and thinkers throughout Washington State** and provides **long-lasting reach throughout the community**. Previous sponsors have strengthened relationships with the community, increased product use, and created long-term connections with the University of Washington. Don't forget - your sponsorship goes towards an **invaluable learning experience** and an opportunity to **inspire innovation in high impact areas!**

We are also willing to accept substitutes in lieu of monetary contributions. Alternative contributions include food, company merchandise, company presence, API credits, hardware, and other in-kind contributions. By the nature of our event, this extends to anything that contributes to our **"Hacks The Future"** theme, even innovative initiatives, workshops on emerging tech, mentorship from industry engineers, or creative challenge problems aligned with future-focused innovation.

Please contact us if you want to discuss company-tailored collaborative ideas or adjust the sponsorship packages to better meet your goals.
